

The expense ratios for multiple Vanguard ETFs have decreased.

Variations in the cost of managing ETFs can lead to changes in expense ratios. If total assets in the fund increase, the expense ratio can fall. Cash outflows from the fund or depreciation can have the opposite effect.

The changes, as reported in the most recent prospectus, are as follows:

Vanguard(R) Consumer Discretionary ETF (VCR)

Prior expense ratio—0.12%

Current expense ratio—0.10%

Vanguard Consumer Staples ETF (VDC)

Prior expense ratio—0.12%
